About the National Rural Women's Coalition

Established in 2002, the NRWC seeks to ensure better social and economic outcomes for women in our rural townships and on farms. The NRWC works to support and grow vibrant rural, regional and remote communities. The NRWC Board comprises seven (8) volunteer directors with representation from five (5) national organisations and is supported by representation from Aboriginal and Torres Strait Islander women and 3 independent directors.

About the e-Skilling Program

The e-Leaders Program is one of the many projects of the NRWC. Over the past five years leadership and learning programs have been delivered using virtual classroom-style learning. To date, over 300 rural women have been empowered to shine, equipped with the skills to make a difference within their industry and/or community. Participants log on from the convenience of their own homes to learn and to network with like-minded women around Australia.
